

FIRE & SAFETY CLASSROOM REQUIREMENTS

1. The Rescue Window
 - must remain completely clear at all times;
 - counter space and four feet in front of the window must remain clear;
 - sticker is the only item fixed and visible on and above the rescue window.
2. At least 20% of all other classroom windows must be clear and free of obstruction.
3. The Exit Door
 - must be clear of attachments and displays;
 - window must remain uncovered, providing a clear view into each individual room at all times.
4. The classroom ceiling must be free of any suspended objects, including hanging wires or string. Wires for the purpose of hanging materials across a classroom are prohibited.
5. The emergency evacuation route must be visibly posted near the exit of each classroom.
6. Heating and air exchange vents must be unobstructed, allowing for the free flow of air.
7. Objects which come within 24" of the ceiling must not be placed on top of wall cabinets or shelves.
8. All multi-plug electrical outlet power-strips and extension cords must be supplied by the district and must not be used as a substitute for permanent wiring.
9. All classroom furniture and carpets must be approved and purchased by the district.
10. The following items are prohibited:
 - curtains, drapes, & tapestries, including all bookshelf, window, and cupboard coverings;
 - portable space heaters;
 - all electrical appliances;
 - and plug in air fresheners.
